BROCHURE SUPPLEMENT for Malik S. Lee CRD No. 5443462

BROCHURE SUPPLEMENT for B. Brandon Mackie CRD No. 2919084

(Item 4) ADVISORY BUSINESS

About Our Business

Felton & Peel Wealth Management, Inc. (referred to herein as “we,” “us,” or “our”) is a wealth management firm that offers an array of advisory services such as financial planning, portfolio management, and separately managed portfolios. Our firm is a Georgia corporation that conducts advisory business in the states of Georgia and New York. We began managing our clients’ investments and providing financial expertise in August of 2018.

Malik S. Lee is our firm’s managing principal and chief compliance officer. Please review the attached Brochure supplements for more information about our investment advisor representatives.

Types of Advisory Services

We provide advisory services to individuals, high net worth individuals, corporations, and charitable organizations. We offer customized goals-based financial planning solutions. After evaluating our client’s financial circumstances and specific needs, we will prepare a financial plan. To implement the financial plan, we recommend investment strategies and management services that are tailored to each client’s financial goals and objectives. A detailed explanation of our services is as follows:

1. Financial Planning & Consultation Services

We consider financial planning an integral aspect of the wealth management process. Our financial planning and consultation services are designed to assist clients in reaching their financial and retirement goals. Our firm provides consultations and develops plans by evaluating data relative to a client’s financial profile, investment goals and objectives, risk tolerance, and tax status. We offer two categories of planning services: Basic and Comprehensive. Please review Exhibit A for a detailed listing of services for each category. We may also prepare financial plans as a stand-alone service or provide planning consultations on an hourly basis.

We will not be responsible for implementing any recommendations contained in the written financial plan prepared by our firm or supervising the implementation of such advice unless a client enters into a separate agreement for investment management services.

Clients who agree to enter into a separate engagement for portfolio management services are advised that our receipt of fees for financial planning services and investment management services creates a conflict of interest due to receipt of fees for both services. We mitigate this conflict of interest by charging a reduced portfolio management fee of .50% to .75% annually to a client who subscribes to our Basic or Comprehensive financial planning services.

Please note that clients are not obligated to implement our financial planning recommendations. Moreover, if a client elects to implement our financial planning recommendations, there is no obligation to implement the recommendations through our firm. Clients may implement recommendations with a professional adviser of personal choosing.

2. Portfolio Management Services

We offer complementary discretionary portfolio management services and personalized asset allocation advice to meet our client’s investment goals and objectives. Our advice regarding financial securities includes but is not limited to equities, mutual funds, exchange-traded funds, municipal bonds, corporate bonds, and other fixed-income securities. If required, we will also modify our investment strategy to accommodate special situations, such as low basis stock, inheritances, or special tax.

3. Separately Managed Portfolio Services

We recommend advisory platforms of other investment advisors with managed strategies to meet the investment needs of our clients. These advisory platforms consist of third party institutional advisors (or money managers) who offer these separately managed programs. The programs encompass portfolios of investments that generally focus on particular investment styles. We monitor the third-party money managers’ strategies to ensure that its objectives remain aligned with the investment objectives and risk tolerance of our client. Although these third-party money managers are granted discretionary authority to manage client assets, we are responsible for providing ongoing re-balancing and continuous monitoring of our client’s securities holdings contained by these platforms.

Tailored Services

Our advice and services are based on the individual needs of our clients after analyzing and evaluating each client’s stated goals, objectives, investment horizon, and risk tolerance thoroughly. Clients may impose

restrictions on investing in certain asset classes or any specific types of securities by advising their investment advisor representative of such guidelines or restrictions.

Wrap Fee Programs

Our firm is not a participant in any wrap fee program.

Assets under Management

We have updated our assets under management figure as required by regulations. We manage a total of \$4,326,508* in client assets on a discretionary basis. *Our asset under management calculations are as of December 31, 2019.

(Item 5) FEES AND COMPENSATION

Advisory Fees

We earn fees and compensation by providing financial planning solutions, portfolio management services, and recommending separately managed portfolio platforms. Our standard fees for services are as follows:

1. Financial Planning & Consultation Fees

~ Financial Planning Services: Basic or Comprehensive~

Our fees for fundamental financial planning and consultation services are assessed in accordance with the category of services provided: Basic or Comprehensive Services. See Exhibit A for specific details.

- Our Basic Service Plan requires an initial fee of \$1,000, which is a set-up/onboarding fee of \$750 and a monthly fee of \$250. Subsequent fees for basic financial planning services are \$250 monthly.
- The Comprehensive Service Plan requires an initial fee of \$1,400, which is a set-up/onboarding fee of \$1050 and a monthly fee of \$350. Clients pay a fee of \$350 monthly for comprehensive services.

~Fees for Stand-Alone Financial Plans~

Clients who are only interested in a stand-alone financial plan may implement such services for a one-time fee of \$5,000.

~Hourly Financial Planning Fees~

On a limited basis, we may provide financial planning services on an hourly consultative basis. In such instances, the hourly rate is \$350 per hour (min. 1 hour).

Our fees for financial planning and consultation services are negotiable, and the final fee, as agreed upon, will be outlined in our financial planning agreement.

2. Portfolio Management Fees

(a) Combined Financial Planning & Portfolio Management

To complement our financial planning services, clients who subscribe to either our Basic or Comprehensive financial planning services will pay an annual portfolio management fee of .50% for investments exclusively in mutual funds and exchange-traded funds. If portfolio assets are also invested in equities and/or fixed-income securities, the annual portfolio management fee increases to .75%.

Sample Fee Calculation

Investments of \$100,000 | \$100,000 @ .50%
 Quarterly fee of \$125 or Annual fee of \$500

(b) Portfolio Management Only

Assets Under Management	Annual Rate
- \$1- to \$1,000,000	1.0%
\$1,000,001 or more	.50%

Sample Fee Calculation

Investments of \$350,000 | \$350,000 @ 1%
 Quarterly fee of \$875 or Annual fee of \$3,500
 Subject to a minimum fee of \$250 quarterly (\$1,000 annually)*

Our fee schedules for portfolio management only services are negotiable. Fees are assessed in accordance with our investment management agreement unless negotiated otherwise. *In evaluating our minimum annual fee, please note that asset values of less than \$100,000 will incur an annual fee that is higher than our stated annual rate.

3. Fees for Separately Managed Portfolio Services

Depending on the program, the aggregate fee for separately managed portfolios ranges up to 2.50% per annum. The advisory fees are based on the account value of the assets held by the specific third-party managed program. Generally, the per annum aggregate fee amount includes the fees assessed by our firm. The final fee is outlined in the third-party money manager's brochure, management agreement, and other disclosure documents.

Billing Procedures

The specific details of our billing procedures are as follows:

1. Financial Planning & Consultation Services

Based on the category of service anticipated, clients will receive an invoice for our set-up/evaluation fee. Upon engagement for financial planning and consultation services, clients are billed monthly in advance on or about the first day of each month. A final version of the financial planning report is delivered within four (4) months of commencing services. Advisory fee invoices for services are transmitted to clients either in person, electronically, or by mail, and payment is due as indicated. Clients pay invoices by the designated electronic funds transfer method. Clients can also provide written authorization to have monthly financial planning fees debited directly from the client's portfolio management account. In such instances, advisory fee invoices are sent to the account custodian.

Stand-Alone Financial Plans

Billing for stand-alone financial planning services requires a fifty (50%) percent deposit. The remaining balance is due upon delivery of the financial plan, which is generally delivered within four (4) months of commencing services. Advisory fee invoices for services are transmitted to clients either in person, electronically, or by mail, and payment is due as indicated. Clients pay invoices by the designated electronic funds transfer method.

Hourly Financial Planning Services

Invoices for hourly financial planning services are due upon the conclusion of the consultation session(s). Advisory fee invoices for services are transmitted to clients either in person, electronically, or by mail, and payment is due upon receipt. Clients pay invoices by the designated electronic funds transfer method.

2. Portfolio Management Services

Our advisory fee assessments for portfolio management services are based on the market value of specific asset classes (e.g., mutual funds vs. equities) under management on the last business day of the preceding calendar quarter. Fees are billed and payable quarterly in advance and client invoices for advisory fees are transmitted electronically or otherwise, at the beginning of each calendar quarter. We customarily receive written authorization to deduct advisory fees directly from clients' accounts, and in correlation with such written authorization, advisory fee invoices (or fee calculations) are sent to the account custodian.

3. Separately Managed Portfolio Services

Generally, the aggregate fee for separately managed portfolio services is deducted directly from the client's accounts pursuant to written authorization incorporated into the third-party money manager's management agreement. Correspondingly, the third-party money manager will pay our firm its portion from the aggregate fee deduction. There are no additional fees charged by us. Generally, the advisory fees are calculated based on the value of all the assets. However, each third-party money manager on a multi-manager platform may calculate its fee based on the value of those assets in the client's account for which the third party money manager provided management services. Upon engagement for separately managed portfolio services, the final aggregate fee, which is based on the initial investment, is delineated in our investment management agreement.

Other Fees & Expenses

Clients will also incur additional third-party fees and expenses ("third party fees") related to the management of investments and advisory service provisions. These fees may include but are not limited to no-load mutual fund ticket charges, brokerage transaction costs, deferred sales charges on previously purchased mutual funds, IRA maintenance fees, and other legal or transfer fees. The account custodians, broker-dealers, mutual fund companies, and others who provide account services charge these fees, and clients are responsible for payment of all third-party fees and expenses. Also, clients whose assets are

invested in mutual funds, exchange-traded funds, money market mutual funds, closed-end funds, and other investment company securities will incur additional expenses. These are direct expenses of the investment company that issues the security but a cost that is borne by investors (clients). The specific fees and expenses are outlined in the prospectus for each investment company security.

It is important to note that the advisory fees paid to our firm are separate and distinct from the maintenance fees and transaction expenses charged by these third parties. *Please also refer to Item 12, Brokerage Practices, for information regarding our account custodian.*

Refund Policy

Clients who do not receive this Brochure at least 48 hours in advance of signing our advisory agreement are afforded the right to terminate their agreement within five (5) business days, without penalty. Upon expiration of the five (5) business day period, either party may terminate any one of the firm's advisory agreements for at any time by providing thirty (30) days prior written notice to the other party. In the event of termination, any prepaid, unearned fees will be refunded within fourteen (14) business days, and any earned, unpaid fees due to us will be collected prior to disbursement of funds, if any. If we are unable to deduct final fees from the account(s), in the case of an account transfer, we will transmit an invoice to the client, which is due upon receipt. Clients pay final invoices by mailing a check to our address herein.

Other Compensation

Neither our firm nor investment advisor representatives accept any compensation for the sale of securities or other investment products. Our investment advisor representatives are not registered in any investment sales capacity.

(Item 6) PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We do not charge performance-based fees or conduct side-by-side investment product management.

(Item 7) TYPES OF CLIENTS

Our firm generally provides advice to individuals, high net worth individuals, corporations, and charitable organizations.

Our firm does not require a minimum asset or investment value to implement services.

Notwithstanding the foregoing, the minimum investment value for separately managed portfolio services will vary according to the program.

(Item 8) METHODS OF ANALYSIS, INVESTMENT STRATEGIES, AND RISK OF LOSS

Methods of Analysis and Investment Strategies

We generally utilize fundamental analysis methods to analyze investments. Our primary sources of information include but are not limited to financial newspapers and magazines, the inspection of corporate activities, research materials prepared by others, and annual reports, prospectuses, and corporate press releases.

Fundamental analysis consists of analyzing financial statements of companies, calculating financial ratios, and reviewing cyclical trends of industries in conjunction with monetary policy indicators to assess the overall performance and profitability of companies.

Our portfolio management strategies consist of suitable asset allocation, diversification, and risk management. Our general recommendations consist of an asset mix of passive, low-cost mutual funds, and exchange-traded funds for long-term growth and income. We may utilize equities, fixed income securities, and separately managed accounts in similar investment strategies. We may also recommend more tactical strategies, if appropriate for the client. Unless engaged for hourly or stand-alone financial planning services, we use a client's financial plan to formulate the investment strategy.

Material Risks of Methods of Analysis and Investment Strategies

Although we utilize conventional investment analysis methods and strategies, there remains some level of material risk. We primarily utilize fundamental analysis methods that measure the risks of companies by formulating assumptions based on historical financial representations. Although we use valid data sources,

examine expense ratios, review return, and risk ratings extensively, refer to economic indicators, review the implications of monetary policy, and consider management team tenure, our strategies are implemented as a result of assumptions that are derived from the analysis of historical data. The results of investment strategies derived from this method of analysis are not guaranteed, and the past performance of an investment is not indicative of future financial returns.

Clients should be aware that all securities and/or investment strategies have various types of risks. While it is impossible to name all potential risks associated with our specific methods of analysis and investment strategies, some risks are as follows:

- **General Market Risks.** Markets can, as a whole, go up or down on various news releases or for no explicable reason. This uncertainty means that at times, the price of specific securities could go up or down without real reason and may take some time to recover any lost value. Adding additional securities may not help to minimize this risk since all securities may be affected by market fluctuations. Market fluctuations will ultimately affect a client's portfolio holdings.
- **Interest Rate Risks.** Changes in interest rates will affect the value of a portfolio's holdings invested in fixed-income securities. The value of fixed income securities is more inclined to decrease as interest rates increase. This decrease in value may not be offset by income from new investments or other portfolio holdings. Interest rate risk is generally greater for fixed-income securities with longer maturities or durations.
- **Credit Risks.** An issuer or guarantor of a fixed-income security may be unable or unwilling to make timely payments of interest or principal or to honor its obligations otherwise. The issuer or guarantor may default, causing a loss of the full principal amount of a security. The degree of risk for a particular security may be reflected in its credit rating. There is the possibility that the credit rating of a fixed-income security may be downgraded after purchase, which may adversely affect its value and a client's portfolio holdings.
- **Financial Risks.** All companies have exposure to financial risks. Excessive borrowing to finance business operations decreases profitability because the company must meet the terms of its obligations in good and bad economic times. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or declining market value of a company's securities. All businesses are susceptible to financial risks at some point in a business cycle. When we invest in companies that have excessive debt, the financial risk of that company could negatively affect a client's portfolio holdings.
- **Equity Securities Risks.** Equity securities such as common stocks are subject to changes in value that may be attributable to market perception of a particular issuer or general stock market fluctuations that affect all issuers. Investments in equity securities may be more volatile than other types of investments.
- **ETF Risks.** There are risks associated with investing in exchange-traded funds (ETFs) that may be unrecognized. ETFs are registered investment companies whose shares represent an interest in a portfolio of securities that are designed to track an underlying benchmark or index. Although ETFs seek to track an underlying benchmark or index, the ETF may or may not hold all of the securities in the underlying benchmark or index. ETFs are also subject to price variations. ETFs trade throughout the day and market prices are generally at or near the most recent net asset value (NAV). However, certain market inefficiencies may cause the shares to trade at a premium or discount to the stated NAV. For example, a high volume of market sales may cause ETFs to trade below the value of the underlying NAV.

Moreover, as with any security, there is also no guarantee that an active secondary market for such ETF shares will continue to exist. Also, the redemption of ETFs can be limited. Only an authorized participant (generally broker-dealers that act as liquidity providers) may engage in creation or redemption transactions of an ETF. Furthermore, ETFs typically have a limited number of broker-dealers that may act as authorized participants. To the extent that authorized participants exit the business or are unable to proceed with creation or redemption orders, and no other authorized participant can step forward, the liquidity of an ETF is likely to be impacted and could face trading halts or delisting.

- **Asset Allocation Risks.** The asset classes represented in a client's portfolio holdings can perform differently from each other at any given time, as well as over the long term. A client's portfolio holdings will be affected by the allocation among, exchange-traded funds, mutual funds, and occasionally fixed income securities (bonds) and equities. If any asset class that comprises a client's holdings underperforms, the performance of other asset classes may suffer.

- **Time Horizon Risks.** A client may require the liquidation of portfolio holdings at a time earlier than the anticipated stated time horizon. If liquidations occur during a period that portfolio values are low, the client will not realize as much value as he/she would have, had the portfolio holdings had the opportunity to gain value (or regain its value) as investments frequently do.
- **Regulatory and Governmental Risk.** Changes in laws and regulations can change the value of securities. Certain industries are more susceptible to government regulation. If portfolio holdings are invested heavily in a particular sector or industry, correlating changes in zoning, tax structure, or specific industry regulations could have an impact on returns or holdings.
- **Reliance on Advisor.** The performance of clients' portfolio holdings depends on the skill and expertise of our firm's staff to make appropriate investment decisions. The success of client portfolios depends upon our firm's ability to develop and implement investment strategies and to apply investment techniques and risk analyses that achieve a client's investment objectives. Subjective decisions made by us may cause portfolios to incur losses or to miss profit opportunities on which it may otherwise have capitalized.

Notwithstanding the method of analysis or investment strategy employed by our firm, the assets within a portfolio are subject to the risk of devaluation or loss. There is no guarantee that portfolio holdings or investment assets will achieve the desired investment objectives. Many different events can affect the value of investment assets or portfolio holdings, including, but not limited to, changes in the financial status of companies, market fluctuations, changes in exchange rates, trading suspensions and delays, economic reports, and natural disasters. While this information provides a synopsis of the events that may affect investments, this listing is not exhaustive.

INVESTING IN SECURITIES INVOLVES A RISK OF LOSS THAT CLIENTS SHOULD BE PREPARED TO BEAR. CLIENTS MAY LOSE ALL OR A SUBSTANTIAL AMOUNT OF THEIR INVESTMENT.

Recommendation of Specific Types of Securities

We do not focus our advice on or make recommendations relative to any particular type of security. Our advice encompasses an array of securities and investment vehicles.

(Item 9) DISCIPLINARY INFORMATION

Neither our firm nor management personnel has been involved in any industry-related legal or disciplinary event.

(Item 10) OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Financial Industry Activities

We are not a registered broker-dealer and do not have an application pending to register as a broker-dealer. Additionally, neither our management personnel nor investment advisor representatives are registered as or have applications pending to register as registered representatives of a broker-dealer.

Financial Industry Affiliations

Neither our management personnel nor investment advisor representatives are registered as a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor nor have applications pending to register as the foregoing or associated persons thereof.

Other Affiliations

Our firm is also an insurance agency. Correspondingly, our investment adviser representatives are licensed as insurance agents who offer and sell insurance products for asset and income protection. The insurance offerings include life insurance, disability insurance, long-term care, group life, and fixed annuities. Many of the insurance products are sold through separate vendors. The firm may devote up to fifty percent (50%) of its resources to insurance activities.

When acting as an insurance agent, our investment advisor representatives will receive separate, yet customary compensation for insurance product sales. In instances where we receive advisory fees in addition to insurance commissions, the firm's compensation will be greater than if the insurance products were purchased separately or absent of the advisory fee component. More specifically, insurance commissions do not offset regular advisory fees. Insurance products may be available through more cost-

effective channels. Please note that clients are not obligated to purchase insurance products recommended by investment advisor representatives of our firm.

Our investment advisor representatives also provide tax projections and tax preparation services through our affiliate, Felton & Peel Tax Services LLC. We offer such services to advisory clients and will receive separate compensation. Clients are not obligated to utilize tax-related services recommended by our investment advisor representatives.

Acting in different capacities through other business activities and receiving compensation in such capacities creates conflicts of interest. Accordingly, this is our notification of the aforementioned conflicts of interest; additional conflicts will be disclosed in writing prior to providing other services.

We do not have any material arrangement or relationship with a related person that is a broker-dealer, municipal securities dealer, government securities dealer or broker, investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or "hedge fund," and offshore fund), other investment advisor or financial planner, futures commission merchant, commodity pool operator, commodity trading advisor, banking or thrift institution, accountant or accounting firm, lawyer or law firm, pension consultant, real estate broker or dealer, sponsor or syndicate of limited partnerships that is not already disclosed herein. Please also review Item 4, Other Business Activities, of each investment advisor representative's Brochure supplement.

Other Investment Advisers

We do recommend other investment advisors to our clients. Please review Items 4 and 5 herein relative to Separately Managed Portfolio Services. Due to the nature of these arrangements, the compensation derived from advisory products and services of other investment advisors (i.e., third-party money managers) can result in a substantial concentration of products and services that benefit our firm. These arrangements are fully disclosed to clients before effecting transactions. Additionally, our chief compliance officer will periodically review transactions to assess over-concentration with respect to any product and service offering by a particular third-party money manager, evaluate client suitability to ensure compatibility with advisory programs, and assess fee structures for compensation that appears to extend beyond customary thresholds.

(Item 11) CODE OF ETHICS, PARTICIPATION, OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Code of Ethics

We require that all employees of Felton & Peel Wealth Management act ethically and professionally. Our management persons, investment advisor representatives, and other employees (collectively, "personnel") subscribe to a strict code of ethics. Our Code of Ethics is constructed to comply with the investment advisory laws and regulations that require firms to act as fiduciaries in transactions with their clients. Our inherent fiduciary duty requires that we act solely in our clients' best interests and adhere to standards of utmost integrity in our communications and transactions. These standards ensure that clients' interests are given precedence.

Accordingly, we have implemented extensive policies, guidelines, and procedures that promote ethical conduct and practices by all of our personnel. The foregoing has been compiled and is collectively referred to as our Code of Ethics. We adopted our Code of Ethics to specify and prohibit certain types of transactions deemed to create conflicts of interest (or perceived conflicts of interest), as well as to establish reporting requirements and enforcement procedures relating to personal transactions by our personnel.

Our Code of Ethics, which specifically deals with our fiduciary duty, professional standards, insider trading, personal trading, and gifts and entertainment, establishes our ideals for ethical conduct based upon fundamental principles of openness, integrity, honesty, and trust.

We will provide a copy of our complete Code of Ethics to any client or prospective client upon request.

Participation or Interest in Client Transactions

We do not recommend that clients buy or sell securities that a related person may have a material financial interest.

Personal Trading

Proprietary Trading

We will, at times, buy or sell securities for our employees that we have also recommended to clients. We will always document any transactions that could be construed as a conflict of interest. Conflicts of interest relative to trades for our employees (“personal accounts”) may present in many different contexts. Some conflicts of interest related to personal trades include trading ahead to obtain a better transaction execution price than clients, recommendations or trades based on financial interest, trading on information that is not available to the public, or structuring transactions in a manner so that the results are profitable for employees’ accounts. To mitigate or remedy any conflicts of interest or perceived conflicts, we monitor internal trading reports for adherence to our Code of Ethics.

Simultaneous Trading

We are likely, from time to time, to buy or sell investments for the personal accounts of our employees at or around the same time as clients. As summarized above, our Code of Ethics requires us to (1) act in accordance with all applicable federal and state regulations, (2) act in the best interest of clients, (3) pre-clear transactions in private placements, or initial public offerings, and (4) review of personal securities transactions by employees to confirm adherence. Our chief compliance officer performs this review. In any instance where similar securities are purchased or sold, we will uphold our fiduciary duty by ensuring that transactions are beneficial to the interest of our clients.

(Item 12) BROKERAGE PRACTICES

Selection and Recommendation

We recommend account custodians after evaluating several factors. These factors include but are not limited to, relatively low fees and expenses, execution capabilities, reputation, access to securities markets, and expertise in handling brokerage support processes. We maintain a custodial services agreement with Shareholders Service Group, Inc. (hereinafter, “SSG”). SSG is a registered broker-dealer, a member of FINRA, and SIPC, and we are participants of SSG’ institutional services platform for independent investment advisors. SSG provides brokerage, operational support, and other custodial services to our firm. Our firm is independently owned and operated and is not affiliated with SSG.

Moreover, although SSG is a registered broker-dealer, neither this account custodian nor any other is responsible for supervising the advisory representatives or activities of our firm. As a result of our established services agreement, cost implications, operational support, and custodial services provided, SSG receives preferential status in the recommendation of custodians for our clients’ advisory transactions.

1. Soft Dollar Benefits

We have not entered into any arrangement to receive research or other products or services other than execution from an account custodian, broker-dealer, or any other third party.

2. Brokerage for Client Referrals

We do not receive client referrals from broker-dealers or other third parties in exchange for using any particular broker-dealer.

3. Directed Brokerage

(a) We recommend that clients utilize SSG. Our service agreement with SSG is designed to maximize trading efficiencies and cost-effectiveness on behalf of our clients. By recommending that clients use SSG as an account custodian, we seek to achieve the most favorable results relative to trading costs, allocation of funds, and rebalancing of client investments.

(b) We also permit clients to direct brokerage. If clients have an existing relationship with or prefer a particular account custodian (or broker-dealer), we will notify that account custodian of our advisor-client relationship and proceed accordingly. Clients are advised that there may be greater costs associated with brokerage transactions pursuant to a directed arrangement in that we may not be able to negotiate transaction costs.

Order Aggregation

In the ordinary course of business, we may (but are not obligated to) block or aggregate orders for all advisory accounts, including our personal accounts to execute transactions in a more timely, equitable, cost-effective, and efficient manner. When we block or aggregate trades, purchase and sale orders are averaged as to price and allocated among accounts proportionally. This practice is reasonably likely to result in an

administrative convenience for our firm and an overall economic benefit to clients. Clients benefit relatively with an averaged purchase or sell execution prices, lower transaction expenses, beneficial timing of transactions, or a combination of these and other factors.

If we decide that order aggregation is in the best interest of clients, before aggregating trades, we will prepare a written allocation statement specifying each advisory account that will participate in the aggregated order and the anticipated allocation among the accounts if the order is filled in its entirety. If the order is partially filled, allocations will be made according to our judgment of the best interest for each client, and such allocation decisions will be documented. For example, if an order is filled partially, client orders will be allocated before any personal account allocations. Each account participating in a block trade will pay or receive the average price for all shares included in the transactions for such securities on that day, to include applicable transaction costs.

Any change to an allocation must treat each client fairly and equitably and must be explained in writing and approved by our chief compliance officer promptly (generally no later than one hour) after the opening of the markets on the trading day following the day the order was executed.

Our firm does not receive any additional compensation or remuneration as a result of order aggregation. The chief compliance officer will review transactions periodically to detect and prevent inefficiencies that result from non-compliance with our order aggregation policies and procedures.

(Item 13) REVIEW OF ACCOUNTS

Periodic Reviews

Our criteria for reviewing client accounts are as follows:

1. Financial Planning & Consultative Reviews

Financial Planning Services

Clients who engage us for Basic or Comprehensive financial planning services are provided updates to financial plans or supplemental planning reports throughout the engagement utilizing meetings or electronic communications. During such reviews, we request updates from clients regarding previously provided financial information or data. It is each client's responsibility to ensure that we are provided the most up-to-date financial information to ensure the accuracy of the projections in the financial plan or planning reports.

Stand-alone Financial Plans

Clients for whom we provide a financial plan on a stand-alone basis may request subsequent updates or supplemental services for an additional fee.

2. Portfolio Management Reviews

Given the parameters set for our asset allocation models, we will monitor accounts continually and rebalance portfolios as we deem appropriate. We conduct formal reviews of a client's investment portfolio(s) no less than annually. Each investment advisor representative will review his respective clients' accounts to determine whether the client's portfolios and strategies continue to align with the stated investment goals and objectives. Clients may request formal reviews more frequently. If reallocation of investments is necessary, we will buy or sell investments that align with a client's investment strategies, goals, and objectives.

3. Monitoring of Separately Managed Portfolios

We review the activity of separately managed accounts no less than annually. We perform a detailed review of clients' holdings to ensure that the investment objective of the third party money manager continuously aligns with the client's financial objectives. This process includes reviewing the various asset classes, investment management styles, and specified risk/return requirements of the portfolio. If reallocation is necessary, we may select or recommend different portfolios or third-party money managers.

Intermittent Review Factors

Periodic reviews are generally triggered by substantial market fluctuation, economic, business, or political events, or by changes in a client's financial status (such as retirement, termination of employment, relocation, or inheritance). Clients should contact us to initiate a review upon the occurrence of any of the foregoing factors.

Client Reports

We do not prepare written reports regarding client accounts. Clients will receive transaction confirmations from the account custodian shortly after trading activity (purchases or sells). Additionally, the account custodian will send monthly statements for each month in which there is trading activity. If there is no trading activity during any month, clients will receive account statements quarterly.

(Item 14) CLIENT REFERRALS AND OTHER COMPENSATION

Economic Benefits for Advisory Services

Our firm does not receive economic benefits from any third party for providing investment advisory services to our clients.

Compensation for Client Referrals

We have entered into solicitation agreements with third-party solicitors who solicit clients for our firm. Such agreements and disclosures are prepared to comply with SEC Rule 206(4)-3, Georgia Uniform Securities Act and the rules promulgated thereto. Clients obtained by solicitor's referral are required to attest to receiving our specific disclosure documents advising of such compensation arrangements.

We may also enter into referral agreements with our firm's non-advisory personnel. Pursuant to such agreements, we will provide compensation to employees for client referrals.

Clients do not incur any additional costs, and there is no differentiation in advisory services provided as a result of our firm compensating persons for referrals.

(Item 15) CUSTODY

Custodian of Assets

Our firm does not hold physical custody of client funds or securities. We require that qualified custodians hold client assets. For more information regarding the account custodian (broker-dealer) that services our accounts, please review the Brokerage Practices section (Item 12). Please note that the account custodians (i.e., SSG, etc.) are not responsible for supervising the advisory representatives or activities of our firm.

Our firm has indirect custody of client funds and securities because of our authorization and ability to deduct advisory fees directly from clients' accounts; nonetheless, we have implemented the safeguard requirements of state regulations by requiring safekeeping of client funds and securities by a qualified custodian.

We also have indirect custody of client funds and securities due to utilizing asset movement authorizations to process account disbursements at a client's request. To ensure the safekeeping of assets subject to movement authorizations, we have implemented the requisite account custodian procedures for safeguarding client assets.

Account Statements

The account custodian will send monthly or quarterly electronic notifications regarding the availability of account statements. Clients are advised to review account statements carefully, comparing asset values, activity, holdings, allocations, performance, and advisory fees on current statements to that in previously received account statements and confirmations.

(Item 16) INVESTMENT DISCRETION

Discretionary Authority

It is customary for our firm to exercise discretionary authority to manage and direct the investments of clients' accounts. This authority is granted upon the execution of our investment management agreement. Discretionary authority is to make and implement investment decisions without prior consultation with clients. Such investment decisions include determining the asset classes and dollar amounts or percentages of securities to be bought or sold for an account and are made in accordance with the client's stated investment objectives. Clients may, at any time during our engagement, advise us in writing of any limitations on our authority. Clients may impose limitations on investing in securities in specific industries or countries, etc., and dollar amounts or percentages of investments in the foregoing.

Standard Limitations

Our discretionary authority does not give us the authorization to take or have possession of any client assets or to deliver any securities or make payment of any funds held in the account to anyone except the account owner.

(Item 17) VOTING CLIENT SECURITIES

Our firm does not participate in proxy voting on behalf of investment management clients. We may provide information for clarification of the issues presented in proxy solicitation materials; however, responsibility for casting proxy votes rests solely with clients. Clients are also responsible for directing shareholder action items relative to mergers, acquisitions, tender offers, bankruptcy proceedings, and other type events about the securities held in accounts managed by us. Clients will receive proxy solicitation and information regarding shareholder action items by mail or electronically from the account custodian or issuer's transfer agent. Clients must follow the instructions for voting or take action as directed in the mailing or electronic delivery.

(Item 18) FINANCIAL INFORMATION

Balance Sheet Requirement

We do not require or solicit prepayment of more than \$500 in advisory fees per client, six (6) months or more in advance. Moreover, our firm does not meet any custody provisions that would require submitting a balance sheet.

Discretionary Authority, Custody of Client Funds or Securities and Financial Condition

It is our customary practice to exercise discretionary authority to supervise and direct the investments of clients' accounts. Additionally, we have indirect custody of client funds and securities because of our authorization and ability to deduct advisory fees directly from clients' accounts. More importantly, we do not have any financial condition that will impair our ability to meet our contractual commitments to clients.

Bankruptcy Petition Filings

Our firm has not been the subject of a bankruptcy petition at any time during the past ten (10) years.

(Item 19) REQUIREMENTS FOR STATE REGISTERED ADVISERS

Firm Management

Felton & Peel Wealth Management has one managing principal, Malik S. Lee. Specific information regarding Mr. Lee's educational and business background is outlined in his attached Brochure supplement.

Other Business Activities

The other business activities of our firm are listed in Item 10, Other Financial Industry Activities and Affiliations. Please also review Item 4, Other Business Activities, of each investment advisor representative's Brochure supplement.

Performance-Based Fees

We do not assess performance-based fees.

Disciplinary Disclosure Reporting

1. Arbitration Claims. NONE
2. Civil Litigation, Self Regulatory Organization proceedings, or Administrative actions. NONE

Relationships or Arrangements with Securities Issuers

Neither our firm nor management personnel has additional relationships or arrangements with any issuer of securities.

ADDITIONAL DISCLOSURES

This section covers conflicts of interest and other information related to our advisory business, not specifically mentioned previously. If you have any questions regarding the disclosures below, please do not hesitate to request additional details or clarification.

CFP Board Disclosures

Our firm employs CERTIFIED FINANCIAL PLANNER™ professionals, Malik S. Lee, CFP®, and B. Brandon Mackie, CFP®. The Brochure supplements for Mr. Lee and Mr. Mackie outline specific details regarding the conferment of the CFP® professional designation. Accordingly, we also adhere to the CFP Board's Standards of Professional Conduct.

We encourage clients to review all of the information outlined in this Brochure that serves as our disclosure document. We welcome any questions that clients may have regarding our advisory services (see Item 4, Advisory Services), compensation (see Item 5, Fees and Compensation), and other activities and affiliations (see Item 10, Other Financial Industry Activities and Affiliations).

Should any material changes occur to the information outlined in this Brochure, updates will be provided to clients in a reasonable time frame, generally within thirty (30) days as required by advisory regulations. We acknowledge our responsibility to adhere to the standards established by the CFP Board's Standards of Professional Conduct, including the duty of care of a fiduciary, as defined by the CFP Board.

Retirement Plan Rollovers

Existing clients or prospective clients leaving an employer typically have four (4) options regarding assets in an existing retirement plan:

1. roll over the assets to the new employer's plan, if available, and rollovers are permitted;
2. leave the assets in the former employer's plan if allowed;
3. roll over the assets to an Individual Retirement Account ("IRA"); or
4. cash out the account value (adverse tax consequences may be applicable).

If we recommend that a client roll over retirement plan assets into an account to be managed by our firm, such a recommendation creates a conflict of interest because we will earn an advisory fee as a result of the rollover. As a fiduciary, we are required to ensure that such a recommendation is in a client's best interest.

BROCHURE SUPPLEMENT for Malik S. Lee CRD No. 5443462

(Item 2) EDUCATIONAL BACKGROUND & BUSINESS EXPERIENCE

Felton & Peel Wealth Management Requirements for Representative Employment

We require that employees who provide advice on behalf of the firm have at least a 4-year college degree and two (2) years of relevant work experience in the securities industry. Prospective employees must also have passed the appropriate state advisory exams. Additional professional designations are encouraged.

Investment Advisor Representative's Information

Malik S. Lee, CFP®, CAP®, APMA®

Year of Birth: 1981

Malik S. Lee is the founder of Felton & Peel Wealth Management. The firm was formed to provide comprehensive wealth management services to clients. Mr. Lee's industry experience and professional expertise consist of over 14 years in the financial services industry, where he specialized in providing wealth management services to retail and institutional clients. Early in his career, Malik successfully passed the Series 7 and Series 66 securities industry exams. Malik currently holds his insurance agent license and advises clients regarding the importance of incorporating risk management strategies in the financial planning process.

Educational Background

Bachelor of Art in Business Finance, Morehouse College, Atlanta, Georgia, 2003

Professional Designations

Certified Financial Planner or CFP®, 2014

Certified Financial Planner, CFP® and federally registered CFP (with flame design) marks (collectively, the "CFP® marks") are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with clients. Currently, more than 62,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;

Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and

Ethics – Agree to be bound by CFP Board's Standards of Professional Conduct, a set of documents outlining the ethical and practice standards for CFP® professionals.

Continuing Education – Individuals who become certified must complete ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks.

Chartered Advisor in Philanthropy or CAP®, 2018

Chartered Advisor in Philanthropy or CAP® are professional certification marks granted by The American College of Financial Services. The CAP® designation provides individuals with the knowledge and expertise needed to help clients with philanthropic planning techniques such as charitable planning, gifting strategies, and fundraising.

To attain the right to use the CAP® mark, an individual must satisfactorily fulfill the following requirements:

Education - Complete three graduate-level courses, equivalent of 9 semester credit hours covering gifts within a financial plan, business exit plans, or estate plans;

Examination – Pass an end-of-course examination after each graduate-level course;

Experience – Candidates must be engaged in professional activities advising individuals or charitable organizations in wealth and estate planning, financial planning, charitable planning, charitable giving, planned giving, nonprofit or foundation management or services, investment management of charitable assets or accounting; or employment in the nonprofit sector in a capacity related to nonprofit management, development, planned giving or fundraising, at least three of the five years immediately preceding application for CAP® certification;

Ethics – Agree to be bound by and adhere to College of Financial Planning’s Standards of Professional Conduct; and

Continuing Education – Following initial conferment, authorization for continued use of CAP® credential must be renewed every two years by completing 15-hours of continuing education.

Accredited Portfolio Management Advisor, APMA®, 2019

Accredited Portfolio Management AdvisorsSM or APMA® is a graduate-level professional designation program for experienced financial professionals certification marks granted by the College of Financial Planning, Inc.

The College for Financial Planning, with more than 37 years of financial services education expertise, is the most established and experienced provider of financial planning education in the industry. Individuals who hold the APMA® designation have completed a course of study that encompasses client assessment and suitability, risk/return, investment objectives, bond and equity portfolios, modern portfolio theory, investor psychology, and other topics germane to building appropriate client portfolios.

To attain the right to use the APMA® marks, an individual must satisfactorily fulfill the following requirements:

Education – Participate in a year-long two-part self-study educational program that encompasses specific content covering both theory and practical application. There are no prerequisites for this certification. The curriculum is developed by the College of Financial Planning’s highly esteemed faculty with input from the country’s top investment and financial firms giving students the benefit of applying their learning to real-world circumstances and case studies;

Examination – Pass an end-of-course examination that tests their ability to synthesize complex concepts and apply theoretical concepts to real-world situations;

Experience – Best for experienced financial advisors and planners who wish to delve deeper into the finer points of portfolio creation, augmentation, and maintenance;

Ethics – Agree to be bound by and adhere to the College of Financial Planning’s Standards of Professional Conduct; and

Continuing Education – Following initial conferment, authorization for continued use of the APMA® credential must be renewed every two years by completing 16-hours of continuing education.
